

# **2003 Patriot Addendum**

The information printed here reflects product design, fabrication, and component parts at the date of printing. Due to product improvements, changes during the model year and/or transcription errors that may occur, information represented within this document may not be accurate at the time of purchase. Please confirm any information with the dealership.

The manufacturer reserves the right, at any time, to make changes in product design or material or component specifications as its sole option, without notice. This includes the substitution of components of a different brand or trade name, which will result in comparable performance. All information printed in this document is subject to change after the date of printing. Some features shown or mentioned in this document are optional and may only be available in selected floorplans.

---

The information on page 5-197 contains a *grammatical error* in the **NAVIGATION SYSTEM**. The second to last sentence should read "Use the Functions on the remote, to scroll *through* the options."

## NAVIGATION SYSTEM

---

The information on page 9-310 needs the *following added* prior to the **TRANSMISSION Shift Selector**.

## SIDE CONSOLE

### **Driver Visor: (Power Option)**

Operates the power sun visor located driver side.

### **Pass Visor: (Power Option)**

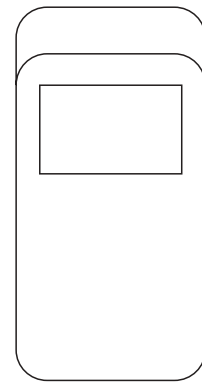

Operates the power sun visor located passenger side.

### **Tag Axle: (Tag Axle Models Only)**

Switch raises and lowers tag axle. When headlight switch is off, switch light is not illuminated. In certain situations tag axle may require to be in up position. Raise the tag axle when making sharp turns under 5 mph.

### **When using tag axle switch:**

- Tag axle down when switch is not lighted.
- Tag axle in up position, when switch is lighted.
- Tag axle switch will illuminate when tag axle is raised or headlights are on.

Typical Switch 080391

**NOTE: The tag axle raises only in first, neutral or reverse.**

**Mirror Heat:**

Turns on the heaters in outside rear view mirrors. The mirror heaters should be used when defogging or deicing is needed. Mirror heat should not be left in the **ON** position unless continuous fogging conditions occur. The outside mirrors have been placed so they can be easily adjusted with an Allen wrench. After taking delivery of the new motorhome it will be necessary to sit in the driver's seat and have the mirrors adjusted for accurate visibility. Make sure you can see out of both the driver and the passenger side mirrors before heading out on the road. Use your left hand you to make the adjustments to the mirrors. When using the mirror heat switch, turn the switch to the on position. Only use the mirror heat long enough to defrost the mirror.

Top Mirror = convex glass.

Middle Mirror = flat glass.

Bottom Mirror = convex glass.

**Mirror Control:**

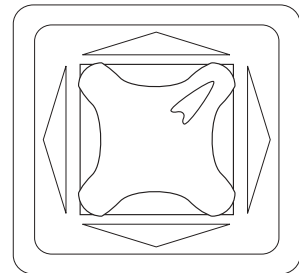

Arrows are located around the selector that point in which direction to adjust the mirror: UP, DOWN, LEFT, or RIGHT. The arrow located on the selector knob can be turn to the left or right for the desired mirror adjustment.

**Engine Brake:**

Activates the control solenoid for the engine brake system.

**Fast Idle: (Cummins Engine Only)**

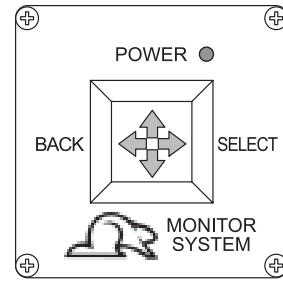

This switch will increase and decrease the engine idle in 25 RPM increments. There are limits to the idle speed, about 700 to 875 RPM.

080392

**VCM Joystick:**

The joystick controls selection of the Video Motorhome Monitor system using basic up and down movement for scrolling and left and right movements for selections.

080377

---

The information on page 9-312 contains a *missing icon*. The icon label next to Engine Warning should read Engine Warning.

**DASH -  
Indicator Lamps**

**Engine Warning:**

Out of range condition exists within the engine protection circuits. Stop the motorhome check all fluid levels.

---

The information on page 9-316 contains *grammatical errors* in Switches and Controls. The information for Mobile Media Station should read as:

**Switches and  
Controls**

**Mobile Media Station: (Radio)**

The in-dash audiovisual center includes AM/FM receiver, rear camera monitor, and monitoring for the optional Global Positioning *System (GPS)*. For operating instructions, please see manufacturers' manuals included in your warranty package.
